## **Church history...**

On the other hand, this definition shows that this Church is part of a large Catholic family. This global community – the universal, or simply the Catholic Church – included not only the Christians of the Latin liturgical tradition, that is Roman Catholics, but also many Christians who adhere to Eastern traditions; Alexandrian, Armenian, Byzantine, East Syriac and West Syriac. Among the various Eastern Catholic Churches, the Ukrainian Greek Catholic Church is the largest. This Catholic identity, expressed in full communion with the Bishop of Rome, has repeatedly been under assault. This was especially true in the last century, which was a time of both glory and martyrdom for the UGCC. In the Soviet era, the Ukrainian Greek Catholic Church was the largest underground religious community in the world. It was also one of the most active structures opposing the Soviet system, upholding human dignity and the right to religious freedom in the face of totalitarianism.
